

# 2

Ruth's  
Learning  
Center

## Educator

This pillar represents prevention and early intervention. Ruth's Learning Center focuses on youth and young adults, teaching workplace readiness, emotional intelligence, communication skills, and boundary-setting before harmful patterns become normalized. By equipping young people with language, awareness, and confidence early, the organization disrupts cycles of workplace bullying before they begin. This pillar centers education, empowerment, and community-based learning as tools for long-term cultural change.
